

THOMAS I. ORGANTZIS

CHIEF FINANCIAL OFFICER • FINANCE TRANSFORMATION

thomas.organtzis@gmail.com • +30 697 888 1252 • thomas-organtzis.github.io • Greece

PROFILE

Chief Financial Officer who **leads finance functions and the people in them** — nearly two decades across Big 4 audit, US-listed manufacturing and European group headquarters. Directs multi-disciplinary teams (35 professionals, four direct reports), owns the full record end to end — group reporting across a **€1 billion, 20-country portfolio**, consolidation into listed parents, multi-entity treasury across 30 to 40 legal entities — and **leads finance transformation** from strategy through delivery, staying hands-on to build the tooling himself where that ships the result. Board-level governance as statutory director of two companies; **develops successors who outlast the tenure**.

CORE COMPETENCIES

Finance Transformation • Group Reporting & Consolidation • IFRS • Corporate Tax • Transfer Pricing • Treasury & Cash Flow • Process Automation • Statutory Reporting • Pillar Two • Internal Controls • SOX • FP&A • Budgeting & Forecasting • Banking Relationships • Working Capital • Multi-Country Operations • Shared Services • Audit Management • Corporate Governance

PROFESSIONAL EXPERIENCE

Chief Financial Officer

Oct 2025 – Present

Haier Europe — Candy Hoover Hellas Single Member S.A.

Greece

Full finance responsibility for the Greek entity of a global appliance group.

- Hold the annual budget and forecast, the monthly close, treasury, banking, debt facilities and cash flow for the entity.
- **Built the cost forecasting and reconciliation model** — closing a gap where forecast and actuals had no single reconciliation point, and cutting the time to identify where a cost problem sits from days to minutes.
- Run corporate tax and transfer pricing — Local File, APA and RPM benchmarking — and lead a judicial appeal on intercompany recharges with external counsel.
- **Led the finance function's transformation end to end** — initiated the changes, set the roadmap (OneStream, RPA, chart-of-accounts), directed the team delivering it, and stayed hands-on where it mattered:
- **Drove the monthly reporting overhaul** — rebuilt the pipeline in Python myself, replacing a failed legacy macro: a full day off the close, and a process any member of the shared service centre can run.
- **Reworked the intercompany reconciliation across 87 positions**, resolving 20 mapping conflicts — four hours removed from every close, and the process transferable rather than resting with one person.
- Designed the delegation-of-authority framework governing signing powers across ten signatories, beyond €50M.
- Renegotiated the third-party logistics contract, challenging the annual indexation mechanism and securing our terms.
- **Directed the transfer of personnel-administration operations from Finance to HR** — restructuring where the work sits, not only how it is done.

Director of Shared Service Accounting & Head of Finance

Jan 2023 – Jan 2025

Etraveli Group

Greece

Accounting operations across the group entity portfolio from the Greek shared service centre, plus full finance responsibility for the Greek operation. Private-equity owned (CVC Capital Partners).

- **Headed 35 finance professionals through four direct reports.** Proposed a new organisational structure for the function, adopted as part of the group restructuring, and redistributed responsibilities across teams to raise output. Developed people through it — an AP associate progressed to manager within two years.
- **Reduced audit findings from 20 to 5** by building the team and the control framework capable of closing them.
- Took the monthly close from five days to four across the entity portfolio.
- **Worked with group treasury to rationalise the banking landscape across 30–40 legal entities** — closing redundant accounts and implementing new control and verification procedures.
- **Prepared consolidation inputs across 35 legal entities.** For the Greek entity, built the financial statements file that consolidated previously fragmented information into a single source, reducing external audit fees.

Role eliminated in a group restructuring.

Senior Financial Analyst — Europe Industrial & Global Conitex

Aug 2019 – Jan 2023

Sonoco, European Headquarters • held concurrently

Belgium

- P&L reporting, budgeting, forecasting and long-term planning for Global Conitex worldwide and Sonoco Europe Industrial — three business units, ~60 plants across 20 countries, combined revenue approximately €1 billion.
- **Ran the group monthly close across 40 entities** — set the rules and timetable, and built validation systems that surfaced errors before results were locked. Closes delivered error-free and verifiable.
- **Took over the group capital expenditure database in a state of disrepair** — unreconciled figures, projects left open and no reconciliation to statutory numbers — and rebuilt it into a controlled process.
- **Point of contact for the annual external audit across 15 countries**, consolidating and reviewing information from local teams.
- **Realize Our Value**: built customer-level value arguments with the US programme team and maintained the tracker with the European CSO, presented at every close.
- **Post-merger integration — Denmark**: two weeks on site integrating a newly acquired plant; identified slow-moving and obsolete stock and reconciled local systems to European group systems.

Finance Director

Nov 2015 – Jan 2023

Sonoco Hellas S.A.

Greece

NYSE-listed global packaging group: three production entities, €30M turnover, 125 staff, seven-person finance team.

- Board Member, Sonoco Hellas S.A. and Conitex Hellas S.A. — statutory director of two legal entities.
- Carried banking, debt and cash flow for the Greek business, and the annual budget and forecast.
- **Uncovered and resolved a €1.5M fraud**, escalated through group internal audit.
- **Developed my own successor** — mentored an interim accounting assistant, hired in 2015, through to Chief Accountant over eight years; he succeeded me directly when I left.
- Provided pricing and margin support across both product lines, covering the full €30M revenue base; reduced operating expenditure 10%; reported under US GAAP, Greek GAAP and SOX.

Chief Accountant

Aug 2014 – Nov 2015

Sonoco Hellas S.A. — first Sonoco role, promoted to Finance Director

Greece

Senior Associate, Assurance & Advisory

Sep 2008 – Aug 2014

PwC

Greece & USA

- Six years auditing listed and multinational groups under IFRS, US GAAP and Greek GAAP — including Dow Chemical and Dana Incorporated in the USA as Senior in Charge, and Viohalco Group, Thrace Group and Toyota / Inchcape in Greece.

EDUCATION, CERTIFICATIONS & SYSTEMS

- Master of Science (MSc) in International Accounting & Finance, Distinction — University of Strathclyde, United Kingdom • Sep 2005 – Sep 2006
- Bachelor of Science (BSc) in Accounting, Distinction — International Hellenic University, Greece • Sep 2000 – Sep 2004
- Certified Accountant, Class A, Greece • ICAEW Certificate in IFRS — top 1% globally
- SOEL — Institute of Certified Public Accountants of Greece (national statutory audit body) — examinations completed
